

EQUUSCOM™

Now there is a state-of-the-art Wireless Bluetooth[®] Duplex Communication System especially designed for the Equine Industry. Single sided Headsets for the Rider and the Trainer.
EQUUSCOM™ is an Industry First!

SYSTEM FEATURES:

- Simultaneous Full Duplex Intercoms do not need to Push to Talk. Just talk like a regular telephone.
- Paired Bluetooth[®] units eliminates conventional cross-talk from other communication devices.
- No wires to break or tangle. No transmitter to hang on your clothes. No flimsy headset that can get broken.
- 500 Meter Range between the Rider and the Trainer.
- Easy attachment to all types of Riding Helmets.
- Mobile Phone Bluetooth[®] connection to the headset.
- MP3 Interface for listening to music while practicing for Freestyle events.
- Noise Reducing Microphone reduces wind noise.
